

## **Home Page**

Welcome to Brush Crazy, a tiny universe of painting, crafting, and creating the projects you dare to dream! Our facility is dedicated to the craft of crafting, and we meet every artist where they are. If you are a beginner, we'll show you the ropes. If you're a pro looking for a little space and fun to explore something new—we'll help you set up shop and unleash your skills. We take pride in offering the perfect artistic haven for your unique creative exploration and expression. Let us guide you through our 5-Step Process to proven painting success. We know you'll leave here happy!

### **The Brush Crazy Five-Step Process**

Painting and craft projects at Brush Crazy are super fun and accessible to all of our guests in part because we had a crazy idea to create a five-step process to make sure every guest gets the very best experience with the right amount of guidance, instruction, and freedom to be uniquely creative.

#### **Step 1: Pick Your Project**

Picking a painting project at Brush Crazy is a big decision! Your options are practically unlimited, as we offer a wide variety of painting projects and crafts. We offer freestyle canvas painting and traditional sip n' paint style projects, and craft painting projects to include paint pouring, drip painting and more. You'll also find shelves full of adorable blank figurines, giftable mugs, plates, and more—all waiting to be brought to life by your paintbrush.

#### **Step 2: Pick Your Paint**

Our cheerful and friendly staff will help you follow the project guide that accompanies your chosen project, or you are welcome to choose a combination of paints and materials that help complete your personal vision. No matter your level of painting experience, our expert staff can help guide you along the process to choose the materials and tools you'll need to complete your craft.

#### **Step 3: Paint Your Project**

Whether you are a novice or have years of experience, Brush Crazy meets every artist at their level. When you begin painting your project, you'll be shown how to collect and organize the appropriate materials. You'll be presented with a personalized tutorial as needed from our

experienced and friendly staff to make sure you understand how to use the tools and materials for your project.

If you have any questions along the way, you can raise a hand or find one of our team members who are circulating the shop to ensure all our customers are in good artistic hands! Our staff will happily answer your questions and show you various painting techniques

#### **Step 4: Let It Dry**

Some types of projects—like acrylic paintings—can dry quickly and travel home with you on the same day you complete your painting craft project. However, clay crafts and other studio projects might need to be left behind for the final stages of finishing. We have a system for this! You will be issued a project ticket to accompany your project, and in the event your chosen art project needs a little extra TLC to reach that point of finished—we'll take care of the kiln firing and you'll receive prompt notification when it's complete!

#### **Step 5: Take it Home**

If your art project is a same-day-done project, you'll be able to head home with your project in tow. We provide a box or other appropriate protection so that you may transport your finished painting project safely. In the event of clay crafts, we will notify you within 5-7 days of when your finished project is ready for pick up.

#### **Unique Painting Projects**

It's more than a painting project that you might encounter at a traditional sip n paint, and we don't expect people to be tied to an instructional guide without deviation. to produce a cookie-cutter paint project, either. You can completely customize your paint project by choosing your inspiration from our large library and catalog of pre-made projects—and then how you choose to follow the instructions is entirely up to you. You will have total control over what colors and materials you use in your project, meaning your project will truly be one-of-a-kind as you see fit.

Our team will guide you along the way as-needed to share our knowledge and professional input on materials and tools, but ultimately, we love empowering our customers to really embrace and trust their inner-artist. Your experience is more than a project, it will be a memory made

#### **The Place for Crazy Painting Fun!**

Whether you're looking for a painting class, a make-and-take pottery environment, or a place to explore and expand your painting techniques, our unique and expansive environment will be sure to knock your socks off. We value our customers' experience and strive to offer a fun and

vibrant offer that truly takes the paint n sip, board and brush experience to a whole new level of crazy fun.

Please check out our website for more detailed info, or send [our team] an email to learn more about our [locations]. We are excited to meet you and show you the ropes here at Brush Crazy, and we can't wait to [book your event] or [reserve your project to go].

Happy Painting!
